

Streamline your office, maximise productivity

Samsung Colour Laser Multifunction Printer CLX-6220FX

Samsung's focus on high specification and quality colour prints has shaped the development of this multifunctional printer range. When your business demands high performance levels of printing, scanning and copying the Samsung CLX-6220FX range is an ideal option. The Samsung CLX-6220FX range offers consistently outstanding colour prints, copies, scanning as well as minimising operational costs.

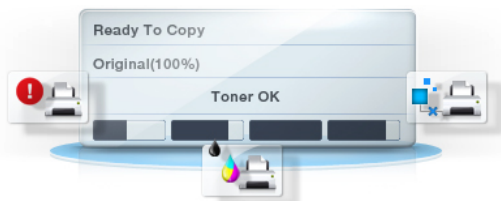

Welcome to your high performance office

The CLX-6220FX increases your productivity with a print speed of 20ppm. With a first page out time of as fast as 24 seconds, you'll spend more time having fun and less time waiting for documents to print. And with multifunction capabilities, it supports copy, scan, and fax - it's your total business solution. Add to that the power to print 65,000 sheets per month and the CLX-6220FX printer is ready for any challenge.

Your printing experience just got a lot more colourful

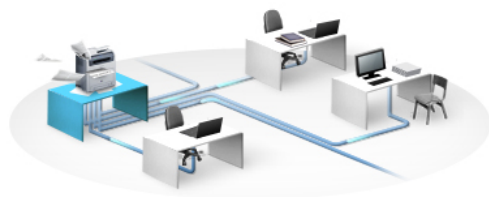

With an almost unreal knack for colour accuracy and the power to handle the demands of premium quality 9,600 x 600dpi with absolute ease, the CLX-6220FX delivers high quality colour printing whenever you need it. And its Easy Colour Manager and enhanced CTD sensor ensure that colour output is always clear, sharp and professional, giving you control of your colours - allowing you to easily adjust colour balance, brightness, contrast and saturation of any image that you view on your monitor.

Take the guesswork out of printing

Has communication been an issue in your current printer relationship? It's time to move on. With the CLX-6220FX's big, bright display, you'll never again have to guess at abbreviations and error codes. The CLX-6220FX tells you its status in crystal-clear lettering on a 4-line LCD screen, twice the readable space of typical printers. Finally, a printer that actually speaks your language.

Connect with your colleagues

Connect everyone in your office to one network and keep everything running smoothly. They'll share a common printer and you'll save time from servicing multiple machines. And with the Ethernet interface you can increase your performance by hooking it up to the network. Improve your communication skills with the CLX-6220FX laser printer and keep your lines of communication open.

Speedy printing from the very first page

Quit spending your life waiting by the printer. The CLX-6220FX's industry-leading first page out time will have your first high-quality print in your hands in as little as 24 seconds. With its rapid 20-20 page-per-minute print speed and professional-grade resolution, you'll get print shop quality in the convenience of your own office. The only problem? What to do with all that new found time.

Compass Navigation

Always know where your job stands with the CLX-6220FX's navigation feedback LED pattern. It keeps you clued in with its 11 different job status indicators, including error and warning situations.

Toner Save Mode

Toner Save Mode lets you print using less toner on each page without compromising quality and extends the life of the toner cartridge than normal mode by up to 30%.

Easy Colour Manager

What you see is what you get with Easy Colour Manager. It lets you adjust the colour balance, brightness, contrast and saturation of any image you view on your monitor, which comes in especially handy when handling specific brand requirements.

Real-Time Calibration

No matter how many times you use the printer it always delivers consistent colour quality, automatically calibrating your colour so you don't have to even think about it. Unless the document is important enough that you want to, and then it will let manually manage the colour quality.

Auto Colour Detection

Skip the hassle of having to manually choose a mono or colour option. The CLX-6220FX automatically detects colour in the images and prints accordingly. You'll save time and money by printing documents in colour only as necessary.

SyncThru™ Web Service

Tired of having to install software just to manage your printer? Now you can change printer settings, upgrade firmware and check your printer's status easily with just a web browser and the innovative SyncThru™ Web Service.

SyncThru™ Admin 5

Who says you can't do it all? SyncThru™ Admin 5 lets you easily install, manage and monitor all your networked digital print devices on an accessible interface. You also have the ability to analyze data

Convenient Direct USB

The CLX-6220FX series features an easily accessible USB port right on the front of the printer. Just plug in your USB drive to directly access and print your files, including PDF, BMP, TIFF, and JPEG

in greater detail with easy-to-read reports.

formats.
